Dr Maysa AbuLaban

Australia

Dr Maysa Abu Laban is one of the leading cosmetic physicians and skin cancer doctors in WA, with over 20 years' experience in the field. Trained by world renowned doctors in aesthetic medicine and surgery, Dr Abu Laban pioneered multiple treatments in WA, including Intense Pulse Light (IPL), fat dissolving injections, and most recently, Plasma eyelid tightening.

She is one of the first doctors to perform thread face lifts in Australia and has to date performed hundreds of treatments using different thread types and various techniques. Dr Abu Laban is highly qualified and experienced in the field of skin cancer medicine and surgery. She provided related services for IPN and Primary Health medical groups for over 13 years.
